CARIES REVERSAL

The Revolution is here . . .

Introducing Icon®

Arrest progression of early carious lesions and
remove white spots in *one visit with no drilling!*

Visit www.drilling-no-thanks.com

- An innovative alternative to the 'Wait and See' approach. Treat upon discovery.
- Breakthrough infiltration technology that fills and reinforces demineralized enamel without drilling or anesthesia.
- Arrests caries progress without unnecessary loss of healthy hard tissue.
- Highly esthetic alternative to micro-abrasion and restorative treatments of cariogenic white spots.

Lesions before Icon treatment

After Icon treatment
